

## Using Your Warming Stadium Seat Cushion

warmilu™

- 1 Activate your InstaWarmer pack by pressing the metal disk, knead to evenly distribute the heat.
- 2 Unzip the **warming** seat cushion, orient the cushion so that the red interior lining is on top,
- 3 Place the InstaWarmer flat inside the cushion between the foam and **white** lining.
- 4 Carefully zip the cushion closed.
- 5 Sit down on the top of the cushion and enjoy your toasty warm cushion!

The InstaWarmer pack is designed to stay warm for the 3-6 hours when used inside the seat cushion. Actual length of warming time is dependent on use and ambient air temperature.

This warming cushion can be used for much more than just at the stadium! Take it with you when you hunt, fish, camp, or any other cold weather activity.

If you need further assistance, or wish to learn more about Warmilu and our mission to **Spread the Warmth, Save Lives** please email us at

## Caution

**DO NOT** use a metal or paper bowl.

**DO NOT** grab pack directly or touch the hot bowl or hot water without appropriate safety gear, such as hot pads or gloves.

**DO NOT** stab, cut, or perforate the external material of your InstaWarmer. If pack contents come in contact with skin or eyes, rinse immediately under cool water. If pack is damaged or leaking, discontinue use immediately and let cool to room temperature before general waste disposal.

**DO NOT** place pack contents into sink.

1

## Roll

Roll the pack into thirds and place into a microwavable bowl filled with the middle with water. Make sure the part of the pack with the disk is **BELOW (UNDER)** the water.

2

## Microwave

Place the bowl of water and the warming pack into the microwave.

3

25 minutes for the full pack.

15 minutes for the half pack.

## Phase I

Set the timer to the Phase I time below on **HIGH** power based on the wattage of your microwave.

4

## Phase II

After Phase I in the microwave, carefully, take the hot pack out from the bowl.

Shake the pack back and forth vigorously to mix **solid chunks**.

Place the pack back into the bowl, with the disk under the water. Set time for the remaining Phase II.

If the pack has not been successfully melted to a full liquid, keep microwaving for additional **5-minute** increments until fully melted.

At this phase, everything in the pack will be liquid.

5

## Cool

Let the pack sit on a table for 45 minutes or until it hits room temperature. The pack will have a gel-like interior with a **jelly and clear liquid**. Now, your pack is ready to activate!

# Boiling: Resetting the Warmilu InstaWarmer

- 1 Fold the InstaWarmer(s) pack in half as shown below.
- 2 Boil enough water to cover pack in large pot.
- 3 Place InstaWarmer(s) in pot and boil for 20-40 minutes.
- 4 Allow InstaWarmer(s) to cool to room temperature on a flat surface.
- 5 Store InstaWarmer(s) in dry place out of direct sunlight until needed.
- 6 Activate InstaWarmer(s) by pressing the disk when you need warmth, mark corresponding bubble for use on label.

(Can be reset 100 times)

**Caution:** Do not grab pack directly or touch the pot or boiling water. Use appropriate safety gear, such as hot pads or appropriate utensils, to protect hands and body from making contact with heated surfaces. Do not stab, cut, or perforate the external material of your InstaWarmer. If pack contents come in contact with skin, rinse immediately under cool water. Though contents are non-toxic, seek appropriate medical help if contents make contact with eyes or open wounds. If pack is damaged or leaking, discontinue use immediately and allow pack contents to return to room temperature before disposing of pack with general waste. Do not place pack contents into sink. Only adults should reset the InstaWarmer.

Spread warmth, save infant lives.

## How to Activate the Warming Pack

Current August 14, 2019

Warmilu makes US-patented non-electric warming products such as infant warming incubator blankets, warming packs, stadium seat cushions, and medical tent canopies. To activate your warming pack, please follow the instructions written below.

1. Roll the warming pack up to push clear liquid into the corner with the metal disk.
2. To heat, grasp activator and click a few times with thumb and forefinger of both hands. You'll hear an audible click.
3. Pack begins heating! You'll see the pack change from liquid to solid as the heat spreads.
4. Knead pack to distribute heat.
5. Mark pack to keep and track use cycle.
6. The pack is ready to go! Place the pack immediately inside the corresponding Warmilu warming fabric product, such as the IncuBlanket, Chiropractor Band, Stadium Seat Cushion, or Hunting Cushion.
